RECRUITMENT & RETENTION - A DISCUSSION ON THE COVID YEAR

COVID will cause many businesses to permanently close.

- Our schools should not be one of them. *Innovative* organizations will seek and find opportunity to help those in need. And they will thrive and fulfil their mission.
- ❖ Recruit and accept **new students now** – (when & where safe and adhering to capacity rules)
- ❖ Recruit **New students for fall 2021 now**. Don't wait for CSW.
- ❖ **Register returning students ASAP**. Simplify, streamline, and gain commitment from your current parents by **Jan 31**.

These three items are mission critical

- During this time of global crisis, our mission of **helping** parents by providing excellent education & development in the Catholic faith is more important than ever.

CHANGE – NOT ALWAYS EASY, BUT ALMOST ALWAYS A GOOD THING

- There's support and help
 - FACTS Team
 - OIS, Marie L, MaryAnn S, Superintendents Office

- We need enhanced systems
- We need to tie it all together
- We need to partner & support

FACTS ON FACTS - THE MOVE TO FACTS SIS

■ Quality & Comprehensiveness

- Superintendents office team and a Principal task force, met with representatives from FACTS several times to receive an overview of their SIS. We met with other dioceses and schools currently utilizing FACTS. We are confident it is a **quality** product. In addition, their interface offers the solutions we need including communication, grading, program support, customization, and more in a *single platform*.

■ Familiarity & Integration- One System goal.

- We currently utilize FACTS for our tuition management system and financial aid assessment. As a result, most families are already familiar with FACTS as an online interface. Now, the tuition management will be seamlessly integrated with these additional features provided through the SIS.

■ FACTS Implementation Timeline

- Details on the implementation schedule will be shared after Christmas. This includes training Principals, administrators, teachers and staff.
- *Diocesan level systems and set ups have started and are in progress.*
- *School level implementations (data transfer and training) will start in February through April, with a full conversion to the SIS before the 2021-2022 school year. Training will be conducted in intervals during the spring and summer months.*

PLANNING FOR 2021 RECRUITMENT

This is a good time for us to recruit and grow

- Message – be clear, consistent, concise
- Method – focus on what's in your control, phone calls, emails, customer service
- Measurement – set goals, track the work, use the tools

METHOD:

- Incoming calls, emails, web forms
 - Audit your customer service steps from phone call/email to completed enrollment
 - Do the staff have all the support needed during these trying times?
 - Is the digital process easy, complete and in use (*See SchoolAdmin page)
- Outgoing calls:
 - Calling your prospects via phone is one of the top actions to take to make a difference.
 - Assign this to a person, have them schedule an hour day to do this.
- Virtual Tours / Information sessions
 - Parents are turning up big time for ZOOM meetings.
 - Create your slide show, prepare your 'tour script' for a virtual presentation (keep it under 20 minutes!)
- Referrals
 - Ask your happy parents to help.
 - Create a social medial post, ask your parents to share it on their timelines.
 - *Parents like you make the difference, please share this and help us help more deserving families like yours! (and the post to share is the invite to attend a virtual open house)*

MEASUREMENTS: INQUIRIES> TOURS> APPLICATIONS> ENROLLMENT

■ SchoolAdmin

- Who is assigned responsibility for recruitment? Are they using SchoolAdmin?
- The platform receives inquiries, emails automated follow ups, reminders to apply...
- Easy communication to groups and targets
- You can see at a glance progress being made with the # of leads, # of applications, # of continuing re-registrations
- ***Principal, Board Chair, Recruitment staff... should complete an online inquiry and application as a test. (use the name 'Test, Test') to experience the SchoolAdmin platform (and assure your school set up has been completed. Everything is customizable to your location and needs)

AREAS WE CAN IMPACT:

Pre-K For All | Financial | COVID related | Happiness 😊

Concentrated efforts should take place to help families with the more ‘controllable factors’.

For the greatest impact action plans to recruit AND retain should include:

- Efforts to recruit the Pre-K For All population into Catholic Kindergarten programs
- Early intervention to problem solve those with Financial concerns
- Outreach those who left for COVID reasons, to help them return
- Improved communication & problem solving to resolve frustrating issues

FOCUS
on what you can
CONTROL

ACTIONS FOR: PRE-K FOR ALL TO KINDERGARTEN

Actively and consistently recruit the Pre-K For All population into Catholic kindergarten.

You can (and should) include your Pre-K For All parents in your community.

1. Make sure the parents **feel part of the family and wanted** in the Kindergarten class. Invest time and energy in:
 - ‘Pre-K to Kindergarten’ support groups, newsletters, networking with HAA
 - Special virtual information sessions on what to expect in the Catholic Academy kindergarten.
 - Why it’s a great option,
 - Benefits to parent and child,
 - How to apply for scholarships - online workshops
2. **Do the children want to return** to your Catholic Academy? What was done to assure the children want to stay?
3. **Engage & partner with Pre-K For All Directors and Teachers**
 - Support and help the Pre-K For All team.
 - And, be sure the parents know other faces of the school: Principal, Kindergarten teachers, staff, HAA leaders... People make decisions based on people.
4. **Act early** – have events and ‘early registration’ ahead of NYC Kindergarten registration
 - Offer priority kindergarten seating, or other reasons to commit now

The logo for 'PRE-K FOR ALL' is displayed in a stylized, multi-colored font. 'PRE-K' is in purple and orange, 'FOR' is in blue, and 'ALL' is in green.

ACTIONS TO TAKE FOR: COVID RELATED

- ❖ Within those that left us due to COVID related concerns:
 - Can we assume they would have remained if not for COVID?
 - Is their 'plan B' working out?
 - Do they know the success you had in a safe reopening?

Let's find out!

- Assign someone who is motivated toward results and skilled with interpersonal communications. Have them contact those that left last year, to check in on them.
 - Show them we care; we miss them, and we want to know how they are doing.
 - Since these families are not in our schools right now, but once were... Invite them back to events (as possible) like family Masses and Christmas related celebrations. They may be missing their Catholic Academy family or having a hard time in the new situation.
- Hold special virtual meetings for those who left and need help.
 - *Partner or refer them to Faith Formation / DRE for those that can not return to school, but need to continue the journey of faith for their children*

CUSTOMER SERVICE CENTERED APPROACH

- Catholic Academies and Parish Schools should take pride in their parent focused, positive & approachable environment.

Part of our mission is to make life better for our parents and children.

- In most cases this is happening and making all the difference.
- COVID and our 'new normal' has tested the limits of nearly all business processes. It may be time to check ours.
- First point of contact -
 - When you need to call the school, use the main line. (to experience what the parents experience)
- Processes – continue to adjust and assess for social distancing and the need to turn everything you can into a digital solution.
- Escalation and reporting -
 - When there is an issue, is it quickly being referred to decision makers empowered to resolve?

Make every day
Happy Parents Day

REDUCING ATTRITION – ACTIONS TO TAKE FOR: NO RESPONSE, OTHER, UNHAPPY

- Parents are at the school daily. They trust us with their children. Notwithstanding COVID related issues, we should be able to have contact and conversation with every parent regarding their children,
 - Improve communication to problem solve now. Not just at time of withdrawal.
 - Assure the team has a paradigm of customer service and support, especially during this uncertain time.
- At each school, there are likely a few well known factors causing pain and attrition. Pick one, or two, and solve them for your parents.

COVID chaos created change –

Let's harness the power of change. Now is the perfect time to make an impact.
