

See the Report Data Sources below for help with reading the report fields –

Report data sources

This report has two sections, one for schools and one for students.

School Column	Definition	Data Source
School Name	School name for any school where current students will be progressed	System > Configuration > School Configuration
Next Year	Default next school year for the school listed	System > Configuration > System Defaults
Student Column	Definition	Data Source
Student	SIS Person ID and student name (Last, First)	Students > Demographics > Basic
Grade	Student's current grade level	Students > School
Next Grade	Student's next grade level after progression	Students > School
Status	Student's current enrollment status	Students > School
Next Status	Student's next enrollment status after progression	Students > School
School	School code of the student's current school or campus Note: If the district has one school or campus, "MAIN" displays	Students > School System > Configuration > School Configuration
Next School	School code of the student's next school or campus	Students > School System > Configuration > School Configuration
Date Previously Progressed	Date (YYYY/MM/DD) progression was previously performed for the student. Note: If the student has never been progressed, "1900/01/01" displays.	Generated by the system
Date Progressed	Date (YYYY/MM/DD) progression was most recently performed for the student. Note: If the student has never been progressed, "1900/01/01" displays.	Generated by the system
Error Message	Warning or error messages	Generated by the system

Common Warnings and Error Messages to help.

Common warning and error messages

Message	Definition
Error: Missing Next Grade	The Next Status for the student needs a Next Grade Level, but a Next Grade Level is not saved for the student.
Error: Missing Next Status	The Next Grade Level for the student needs a Next Status, but a Next Status is not saved for the student.
Error: No Next Grade Expected	The Next Status for the student does not need a Next Grade Level, but a Next Grade Level is saved for the student.
Error: Wrong Next School	The saved Next School for the student does not match the configuration for grade levels.
No Progression Run (District Wide)	Student has never been progressed in FACTS SIS.
Warning: Next grade level not the default setting.	The saved Next Grade Level for the student does not match the default setting for progression (common if a student is skipping or repeating a grade).
