## OUR MISSION

We strive to be a welcoming and responsive Roman Catholic community by passing on our faith and traditions as we teach the students from Pre-K 3 to 8th grade by word and example. In order to prepare our students to achieve success in their future educational endeavors, most notably academically challenging high schools, our faculty aims to empower our students to achieve excellence through instructional rigor.

In the heart of Dyker Heights lies St. Ephrem Catholic Academy. A Catholic school where you and your child are treated like family.

Your child will have the benefit of an exemplary education while having the care of exceptional teachers. Contact us today to set up a tour and see for yourself.
