

How to Upgrade and Clear Cache in Google Chrome

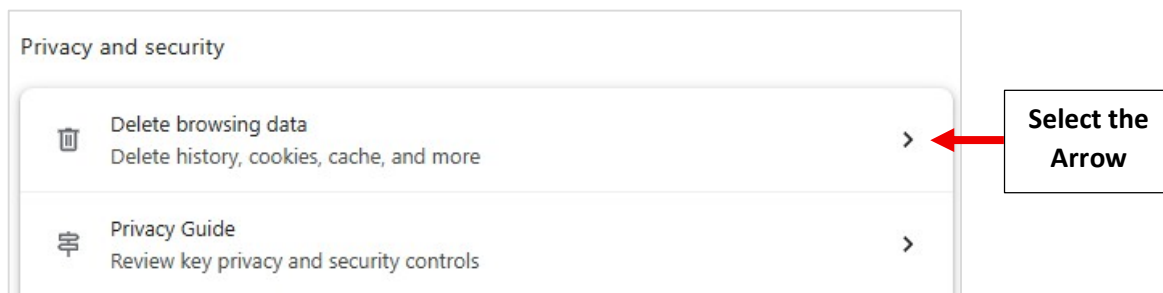

To upgrade Google Chrome on a computer, Click the three-dot menu (⋮) in the top-right corner, select Help, then About Google Chrome to trigger an automatic update

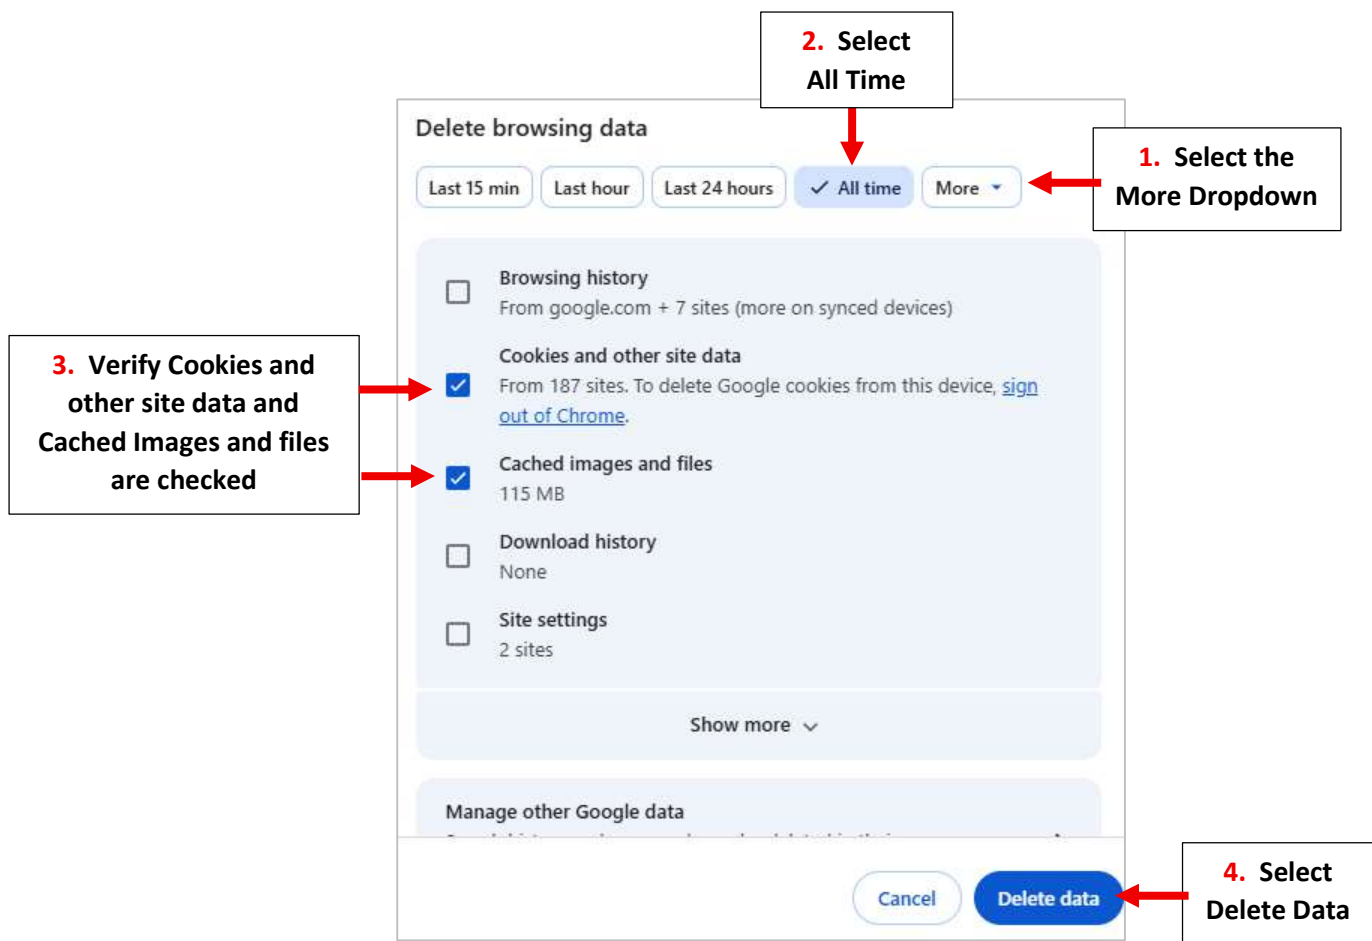

The browser will check for the latest version. *****DO NOT***** Relaunch the browser. Select **Privacy and Security**

Select the Arrow next to **Delete Browsing Data**

Select **More** than Select All Time. Verify Cookies and other site data and Cached Images and files are checked. Select Delete Data

Once completed Close All Browser Windows and Relaunch Chrome.
